

There are a number of good places along Southwest Blvd in the Arbutus are for pictures of the corridor.

Railfanning not really recommended above this point thru W Balt.

Access to the viaduct is easy now that they put a walking path through the park, park off Washington Blvd.

Lots of activity during the weekday morning with MARC coming thru and CSX putting together freights at this end of yd.

Carroll viaduct shows up on the CSX maps as Mt Clare viaduct.

See MAP 11 For Details of Zepp's Bridge & The Yard

Check out the Bailey's Wye map for more info and signal pix

Almost full CPL -- it has all 6 markers, just missing restrict

Lots of CPL's for now on this map, don't know how long they will last, as color lights have already replaced some by Gable Ave

Freights going up the ex WM line originate out of Curtiss Bay.

Nice shots of CSX freights can be had here, if you can catch them!

Todd's Railfan Guide to:
BALTIMORE - MD
BAL7 - SW of Baltimore

14 Old B&A wooden trestle still in use.

This map is much, much better if printed in color!
